Scenes from our Compliance Certification Report

Our SACSCOC Compliance Certification Report has been mailed to our Off-Site Review Committee. The final report is 492 pages long and has more than 2,390 pieces of supporting documentation. This month, we thought we'd give you some samples of the tables that have been provided in the document to illustrate the breadth of the investigation involved in preparing the report. If, after reading these bits of information, you are intrigued and would like to read some or all of our Compliance Certification Report, just contact Stephanie Kolitsch (skolitsc@utm.edu) and we will get a copy to you. And—our sincere thanks to everyone who contributed to completing this report!

In the section that includes Table 6.1-3, we are arguing that, on a university-wide basis, we have sufficient numbers of faculty to carry out the mission of the institution. This table illustrates one way we make that argument.

Table 6.1-3: Number of full-time faculty and student/faculty ratio for peer institutions

Table 8.1-1 and Table 8.1-12 share data used by THEC to make recommendations for state funding. In the section containing these tables, we are looking at student success metrics, and the metrics used by THEC are just a few of the many ways we measure student success. Note that Table 8.1-12 focuses on disaggregating our six-year graduation rates and looking at particular subpopulations of students. Also note that THEC's disaggregation categories have evolved over time.

Table 8.1-1: Funding Formula data 2018-19 through 2020-21

Notes:

1. For Fact Books prior to 2021, students who declared an ethnicity of Hispanic were counted both in the Hispanic count and in their race designation. Beginning with the 2022 Fact Book, students who declare an ethnicity of Hispanic are counted only in Hispanic of Any Race.
2. Other includes Alaskan Native, American Indian, Asian or Pacific Islander, and Multiracial.
3. Unknown represents unreported races and ethnicities.
4. Male six-year graduation rates were not reported as part of the Fact Books until the 2021 Fact Book.
5. Pell ineligible students' graduation rates were not reported as part of the Fact Books until the 2021 Fact Book.

In section 8.2b of the Compliance Certification Report, we are looking at our general education program and demonstrating that we continue to seek improvement in our students' levels of success. Table 8.2.b-5 contains some data describing our students' levels of SLO attainment for each of the categories in our general education program. (This section also has all of our general education annual assessment reports and feedback reports for the past three years as well as our five-year reviews of general education courses.) Don't panic because some of our percentages decreased—we all know that fluctuations occur in data, and for at least a few of these, the fluctuations occurred because of changes in benchmarks and/or assessment instruments.

Have you ever wondered just how many resources our Paul Meek Library has in its holdings, or how many people actually use the Library? We have an entire chapter devoted to the Library and other learning resources, and these tables help answer some of those questions.
